

# Legend & Elegance Edition verandas

*secured to your  
property*

## **Strong and secure**

A Gardendreams veranda are made of aluminium of the highest quality. Our aluminium are powder coated in three standard colours: White (RAL 9016), Cream white (RAL 9001) and Anthracite grey with texture (RAL 7016). Our verandas are manufactured according to German construction standards, ensuring a guaranteed strong, safe and solid system. Gardendreams products have recently been NEN-EN 1090 certified since January 2016. Aluminium is a very durable, does not discolour and is of low maintenance.

## **Roofing**

The roofing material can be a subjective choice. Besides the two polycarbonate roofing choices, we also offer two heat-resistant sorts that not only gives a clear view but also lets in more sunlight. For those who prefer luxury and transparency, glass roofing is also available. Sunlight-reflecting glass is also an option next to the standard safety glass.

## **Additional options**

The set up and composition is totally up to you. Whether you choose a straight, diagonal or freestanding as a carport or a garden room. Do you want to expand and decorate your veranda? Gardendreams offers extra possibilities such as lighting and heating systems.

# ***Garden dreams***

Bring the outdoor living into your home & expand your living space

# Legend Edition veranda

## AFFORDABLE QUALITY

### Gardendreams Legend Edition veranda

This is our classic veranda where it all began. A sophisticated, solid and robust system that is thoroughly designed and applicable to every situation. The Legend Edition has a standard 16 mm thick polycarbonate roofing available in Opal and Clear.

**Veranda**  
*at an affordable price*
